3	Nano-Core Atomizer				

The **“Casper All-In-One”** is a **glass tank**, ceramic center post **All-In-One** that has our Nano-Core heating element designed to deliver the ultimate vape experience. More puffs per tank of the same size than any other!

The **Nano-Core heating element** was thoughtfully engineered to create smaller vapor particles upon oil contact. This increases efficiency of oils and improves bioavailability of oil compounds due to the decrease in vapor particle size. With the combination of a ceramic center-post and the Nano-Core heating element our **Casper All-In-Ones** create a unique and market-separating experience for any brand!
